5. **PUBLIC HEARING**

   5.1 Conduct public hearing on TAMC Unmet Transit Needs.

   TAMC Staff Andy Cook provided a presentation on the purpose of TAMC unmet transit needs process for Monterey County. The unmet transit needs process is associated with sales taxes allocated to public transit services. However, before allocating funding, the Agency must provide a public hearing and outreach to identify unmet transit needs. Further, Mr. Cook stated that lack of available funds cannot be the sole criteria use to determine that a need is not reasonable to meet. For consideration as part of the Agency’s findings, the Agency is requesting that public comments and questionnaires on unmet transit be provided by January 31, 2013 to allow time to coordinate with MST to identify which unmet needs are reasonable to meet. TAMC will estimate how much money is available for public transit and the estimate will be available by February 2013.

   In addition, Mr. Cook informed the committee that the Agency has received a request through the unmet needs process from the following members of the public:

   1) Residents of Spreckels Community, and the Las Palmas Community.
2) Monterey County Office of Education (MCOE) Staff Richard Adams who expressed the need to accommodate expansion of fixed-route bus services near Bolsa Knolls School.

3) Ms. Suzanne Gibbs expressed the need for more service via highway 68 corridor.

Ms. Sullivan asked member Kathleen Murray-Phillips with Agency on Aging to report information about the senior transportation survey.

Ms. Murray-Phillips reported that transportation needs for seniors ranked number two in Monterey County, but geographically was the number one need in South County and in the Peninsula area.

Ms. Sullivan states that Ms. Jimenez played a big role in assisting outreach for public transit in Spreckels Community.

Currently, Mr. Adams provides assistance to teachers at Bolsa Knolls School about independent living skills including the use of public bus to get to and from school or work. away. However, few of the students are wheelchair dependent and unable to navigate the streets to and from the nearest bus stop.
